SUPPLEMENTARY INFORMATION:

Description: The NHTTAC delivers training and technical assistance (T/TA) to inform and deliver a public health response to trafficking. In applying a public health approach, NHTTAC holistically builds the capacity of professionals, organizations, and communities to identify and respond to the complex needs of all individuals who have experienced trafficking or who have increased risk factors for trafficking and address the root causes that put individuals, families, and communities at risk of trafficking. These efforts ultimately help improve the availability and delivery of coordinated and trauma-informed services before, during, and after an individual's trafficking exploitation, regardless of their age, gender

identity, sexual orientation, race/ethnicity, nationality, or type of exploitation experienced.

NHTTAC hosts a variety of services, programs, and facilitated sessions to improve service provision to people who have experienced trafficking or who have increased risk factors for trafficking, including The Human Trafficking Leadership Academy; SOAR (Stop, Observe, Ask, and Respond) to Health and Wellness; OTIP-funded recipients; both short-term and specialized T/TA requests; the NHTTAC Customer Support; and information through NHTTAC's website, resources, and materials about trafficking. This information collection is intended to collect feedback from participants to assess a diverse range of T/TA provided by NHTTAC.

Revisions have been made in order to:

- Respond to Postgraduate Institute for Medicine accreditation requirements through SOAR T/TA
- Reduce burden where applicable
- Provide flexibility for NHTTAC to assess new knowledge gains, application of skills/competencies, and outcomes of participants who received NHTTAC T/TA
- Understand NHTTAC's progress on improving diversity, equity, and inclusion

Respondents: NHTTAC T/TA participants include OTIP grant recipients, individuals with lived experience, professionals who interact with and provide services to

individuals who have experienced trafficking, including healthcare, behavioral health, public health, and human service practitioners, organizations, and communities.
